## Boson Rapid Covid Self-test (Swab) test 1-pack

Covid-19 test

Rapid test  
Covid-19

Self-test A CE-marked medical device. Covid 19 usually resembles a common cold or flu. The symptoms generally appear within 3-5 days after you have been infected. In some cases it can take up to 14 days. If you suspect that you have been infected with Covid 19, you can quickly and easily test yourself by stuffing your nose and get an answer within 20 minutes. The test should be taken within the first seven days after the onset of symptoms. The test does not replace healthcare tests. Self-test BOSON Antigen Rapid Test does not require trained healthcare professionals. Suitable for use by both individuals and companies. There is one test per pack and is for single use only. The package contains everything to carry out the test. 1 x Sterile top spin 1 x Extraction tube 1 x Extraction solution 1 x Test tube holder 1 x Instructions for use NOTE! The test result can not be used as a travel certificate.
